## Addition word problems:

Solve the simple addition word problems.

- 1) Ben has 7 building blocks. He finds 3 more blocks under his bed. How many blocks does Ben have in total?

$$7 + 3 = \underline{\quad}$$

- 2) There are 2 vans in the parking lot. 3 more vans arrive. How many vans are there now?

$$2 + 3 = \underline{\quad}$$

- 3) Leena sees 4 rose flowers in the garden. She plants 5 more rose flowers. How many rose flowers are there now?

$$4 + 5 = \underline{\quad}$$

- 4) Sam has 1 chocolate. His friend gives him 4 more chocolates. How many chocolates does Sam have now?

$$1 + 4 = \underline{\quad}$$
